ULTRA-CONTROLO

Accessories

Inductive Proximity Sensor

SHUT-OFF VALVES

Accessories

Inductive Proximity Sensor

The proximity sensor can detect objects in the immediate vicinity of the "sensitive side" of the sensor, without having to actually make physical contact. The absence of mechanical actuator mechanisms and physical contact between sensor and object makes these sensors extremely reliable.

Features

- Namur AC/DC
- M5 thread
- 2 m cable

Standards

- UNI EN ISO 7396-1

VOLTAGE SUPPLY	THREADED	SENSING DISTANCE	LENGTH SENSOR	LENGTH CABLE
Namur AC 3-24 VDC / Namur DC 3-24 VDC	M5	0.8 mm	16 mm	2 m
