ULTRA-CONTROLO

Enclosures

Enclosure - EN 7396-1

SECOND STAGE REDUCER MODULES

Enclosures

Enclosure - EN 7396-1

2nd stage reduction unit box available in two versions: wall mount or recessed. The front panel has transparent windows so you can easily read the pressure and check the status of the valves. The front panel is locked with a triangular socket key and has an emergency press-release system.

Features

· Wall-mount or recessed
· 3 or 5 gas outlets

Standards

· UNI EN ISO 7396-1

Components

· Case and door in galvanised steel painted white with anti-scratch powders

N. OF GAS OUTLETS	TYPE	WEIGHT
